

FOR IMMEDIATE RELEASE

***aquilaheywood* winning streak continues at the
FT Pensions and Investment Provider Awards**

LONDON –07 May 2009

Following swiftly on the heels of an unprecedented “double” at the UK Pension Awards in April this year, *aquilaheywood*, the leading pensions administration software provider, has now secured the accolades at the 2009 FT Pensions and Investment Provider Awards, winning best Pensions Administration System.

The awards recognise providers who have delivered excellent service to UK pension schemes over the previous year and are judged by an expert panel.

The news comes in the same week that saw *aquilaheywood* announced as finalists in the forthcoming National Business Awards and the European Pensions Awards later this year.

This recognition reflects *aquilaheywood's* outstanding position in all of its markets both here and abroad.

David Ackroyd, Chief Executive of *aquilaheywood* stated:

“The accolades we are collecting this year shows that despite the tricky economic conditions, *aquilaheywood* remains a valued partner consistently delivering market-leading, quality solutions to its clients.”
